The Kansas City Flute Choir, founded in 2005, is dedicated to providing a unique musical experience to flutists of all ages in the greater Kansas City area; to providing an outlet for flutists who are unable to find another school or community music ensemble in which to play; and to exposing Kansas City audiences to new and innovative repertoire. The flute choir also seeks to develop musicianship and leadership skills through its mentoring program, and to give young musicians experience playing and performing on instruments to which they would not have access otherwise. The Kansas City Flute Choir is an equal opportunity organization devoted to promoting harmony, fellowship, and unity through music. For more information, please visit our website:
